## STATEMENT BY FEDERAL PRIME MINISTER

Citizens of the Federal Republic of Lostisland, in the recent days a public turmoil has been started between my Administration and the so-called "Prosecutor-General". I'm hereby clarifying:

- Democracy can have criticism on the judicial system;
- Calling me out publicly before me being able to answer to a Court of law is no less than **Slander** and **Defamation**;

To bring the truth in front of them, I never participated in any form of vote rigging or coordination with a foreign hostile power. Before presenting such serious allegations to the Citizens of Our Republic, it would have been wise of the Prosecutor-General to collect some evidence. His lack of evidence displays the slanderous and defamatory background of the accusations.

As a result of this serious and clear corruption in the judicial system I call upon President Mar to either **clean out the rats nest** which calls itself the Judicial system of Lostisland or call another early election.

To Nazar Chagatay "Prosecutor-General": Instead of handing me a subpoena and starting a Case against me in a Court of Law. You start a public lynching without any form of evidence whatsoever on the Holy Easter.

I wonder, which foreign power paid you in gold coins to throw this pile of shite over me? Perhaps you should have shared this in your statement. I wonder, how much do you pay the Supreme Court to support you in your vile work? Perhaps you should have also shared this in your statement.

Federal Prime Minister, Minister of State Security  
**Denys Feofanovych Tezdhanenko**
